

SKFORM

100 ml tincture

SKIN FORMULA

Our skin is the largest organ of the human body. It's also an organ of elimination tied to the healthy functioning of the liver. We absorb many chemicals, from pollution to lotions and soaps that we use daily, which must travel through the blood to be processed or excreted as waste.

Our skin cells reproduce about once every 30 days and are affected by these environmental exposures and eliminatory processes. This can sometimes cause common skin problems.

SKFORM is a food supplement formulated with herbs used to help support skin and liver wellness.

PRODUCT INFORMATION

Ingredients:

Chaparral (*Larrea tridentata*), dandelion (*traxacum officinale*), burdock root (*atrium lappa*), liquorice root (*glycyrrhiza glabra*), yellow dock root (*rumex crispus*), kelp (*nereocystis luetkeana*), cayenne (*capsicum minimum*), neem (*azadirachta indica*)

Directions:

Take 35 drops x 3 times daily in a little water, away from food.

Do not exceed the recommended daily intake.

Food supplements should not be used as a substitute for a varied diet and healthy lifestyle.

Do not take if pregnant or breast feeding.

** This statement has not been evaluated by the EFSA. This product is not intended to diagnose, treat, cure or prevent any disease.*

ABOUT THE INGREDIENTS

- ✓ **Chaparral (*Larrea tridentata*):** Old Mexican herbalists have long valued *Larrea tridentata* for treating eczema and other skin conditions.
- ✓ **Dandelion (*Traxacum officinale*):** Supports the liver and improves digestion, aids in flushing toxins from the body.
- ✓ **Burdock root (*Atrium lappa*):** Burdock is a most valuable remedy for the treatment of skin conditions which result in dry and scaly skin. It may be most effective in psoriasis if used over a long period of time. All types of eczema may be treated effectively if burdock is used over a period of time.
- ✓ **Liquorice root (*Glycyrrbiza glabra*):** Licorice root contains an active compound called glabridin. The root has powerful antioxidants that help protect the skin from environmental stressors, as well as “licochalcone,” which helps those that have oily skin.
- ✓ **Yellow dock root (*Rumex crispus*):** Yellow dock is used extensively in the treatment of chronic skin complaints such as psoriasis.
- ✓ **Kelp (*Nereocystis luetkeana*):** Kelp can also help to prevent early loss of elasticity of the skin and therefore keep skin looking firmer and younger for longer. The Memorial Sloan-Kettering Cancer Centre reports that extracts of the bladderwrack kelp had antioxidant and skin-firming attributes. Kelp also contains minerals like calcium, fluorine and magnesium which can give your skin a radiant glow. It is also rich in Vitamins A, C and E, as well as minerals such as magnesium, selenium and zinc. These vitamins and minerals are essential to regenerating skin cells and tissue.
- ✓ **Cayenne (*Capsicum minimum*):** It is been proven that capsaicin can be an effective treatment for the skin condition such as psoriasis.
- ✓ **Neem (*Azadirachta indica*):** Neem has antifungal and antibacterial properties and can help the skin remain hydrated and eliminate dandruff while strengthening your hair and improving the health of your hair follicles due to its antioxidant content.
