

DTXFORM

100 ml tincture

DETOXIFICATION FORMULA

Detoxification is the physiological or medicinal removal of toxic substances from a living organism.

DTXFORM is a food supplement that contains beneficial herbs that are incredibly detoxifying and help to support the liver and kidneys in flushing waste from the body.

BENEFICIAL OF A CLEANSE

1. Improved weight management
2. Increased energy
3. Better digestion
4. Less bloating
5. Clearer skin
6. Shinier hair
7. Better sleep
8. Clearer thinking

PRODUCT INFORMATION

Ingredients:

Milk thistle (*Silybum marianum*), Barberry root (*berberis vulgaris*), Burdock root (*Arctium lappa*), Cayenne (*Capsicum frutescens*), Parsley root (*petroselinum crispum*), cleavers (*Gallium aparize*)

Directions:

Take 35 drops x 3 times daily in a little water, away from food.

Do not exceed the recommended daily intake.

Food supplements should not be used as a substitute for a varied diet and healthy lifestyle.

Do not take if pregnant or breast feeding.

ABOUT THE INGREDIENTS

- ✓ **Milk thistle (*Silybum marianum*):** Several scientific studies suggest that substances in milk thistle (especially a flavonoid called silymarin) protect the liver from toxins, including certain drugs, such as acetaminophen (Tylenol), which can cause liver damage in high doses. Silymarin has antioxidant and anti-inflammatory properties. And it may help the liver repair itself by growing new cells. In laboratory studies, silymarin has been found to stabilize cell membranes, thus preventing toxic chemicals from entering the cell.
- ✓ **Barberry root (*Berberis vulgaris*):** Barberry contains the active ingredient berberine which has antimicrobial, anti-inflammatory properties. Berberine is able to activate an enzyme called Adenosine Monophosphate-Activated Protein Kinase (AMPK) while inhibiting Protein-Tyrosine Phosphatase 1B (PTP1B). Activating AMPK is important to health, and appears to play a key role in reversing insulin resistance, promoting glycolysis, and reducing oxidative stress.
- ✓ **Burdock root (*Arctium lappa*):** Burdock is a powerful blood purifier and potent detoxification herb. As a potent lymph and skin cleanser, burdock forces the body to eliminate waste products, thereby clearing the skin, bloodstream and other organs and tissues of toxins. Its antibiotic-like actions will also assist in dealing with toxins circulating in the system.
- ✓ **Cayenne (*Capsicum frutescens*):** Regarded by herbalists as the purest and safest stimulant, cayenne opens up tissues throughout the body to an increased flow of blood and stimulates the oxygenation of cells and organs. It invigorates the circulatory system and the heart to work more efficiently and thereby assists the effective movement of toxins out of the body. It also serves as a carrier for the other herbs in this formula - so that they arrive quickly and effectively to their particular areas of work.
- ✓ **Parsley root (*Petroselinum crispum*):** This is a natural anti-spasmodic, a natural diuretic, a good expectorant and can be used for coughs and asthma. It also helps to relieve gas. The green leaves contain chlorophyll - a powerful phyto-chemical, detoxifier and cleanser. Parsley helps to cleanse the liver, kidneys (breaks down gallstones and kidney stones) and bloodstream.
- ✓ **Cleavers (*Gallium aparize*):** Cleavers known as one of the "blood cleansing herbs". Cleavers acts as a stimulant by kicking your lymph into gear so that it can do its job properly throwing those nasty toxins into the bloodstream to be harmlessly carried away! Using a detoxifying herb like cleavers will inherently improve your body function and general health.
